

On-Demand Tutoring

Real-time help that empowers your Imagine+ Math™ students

We are there when you can't be! From within a secure online platform, students can access real-time, one-on-one support from trained tutors at the click of a button. Equitable access to one-on-one support gives math students the guidance they need to successfully complete lessons and move forward in their personalized learning paths with confidence.

On-Demand Tutoring in Imagine+ Math includes:

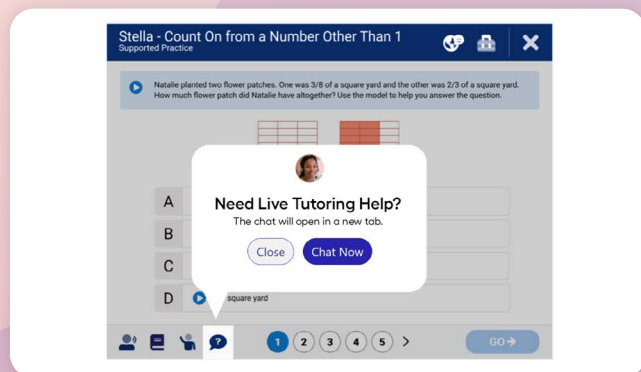

- A deeply trained cohort of tutors
- Availability starting in grade 3
- One-on-one homework help via chat or voice; available in English and Spanish
- Dynamic visual models via a two-way interactive whiteboard

On-Demand Tutoring, available 7 days a week

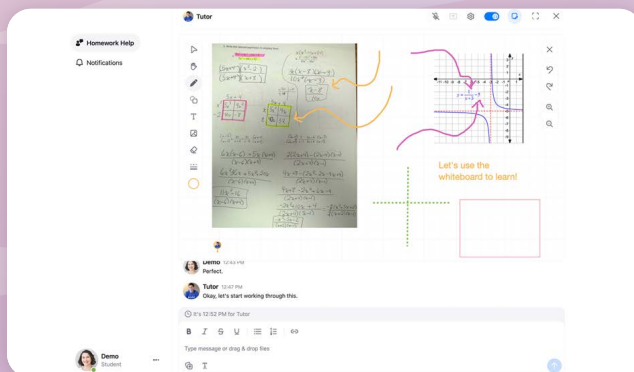

Monday – Friday	8 AM – 10 PM*
Saturday	9 AM – 4 PM*
Sunday	6 PM – 10 PM*

*All times are local to Continental US; please see Imagine Learning Help Center for AK, HI, and holiday hours.

Accessing On-Demand Tutoring in Imagine+ Math

Once a student has attempted a question and gotten it wrong during “Supported Practice” (Grades 3–5) or “Instruction” (Grades 6 and up) in the Builder Pathway, or during “Guided Learning” (Grades 3 and up) in the Mastery Pathway, they can access a “help” button to open a tutoring session.

Students can chat with a tutor for help with the activity they are working on. The tutor may open an interactive whiteboard to help them visualize the concept.
