

Imagine IM Grades 6–8 Manipulative Kits

Designed for positive student outcomes in math

Imagine IM 6–8 offers convenient manipulative kits for each grade level, configured to support the curriculum's problem-based pedagogy and instructional design. Classroom kits from Didax® are curated to facilitate the transition from the concrete to the abstract for deep conceptual understanding and alignment with the mathematical practices.

All kits come in a convenient, portable storage bin and accommodate approximately 30 students.
