Sessions	4 sessions	8 sessions	2 onsite days (4 sessions)	4 onsite days (8 sessions)

Four levels of sessions available

Leading with Success for Administrators	Getting Started Workshops for Educators	Next Step Workshops for Educators	Targeted Support

LEADING WITH SUCCESS

Audience: Administrators

Session Title	Description
Best Practices to Lead with Success	Prepare leaders with everything needed to jump-start and lead a successful implementation. Dive into each school's success plan and learn key management tasks for the first 30 days to plan for program launch. Map out best practices for the next 60-90 days to guide how to use Imagine MyPath with fidelity, monitor progress, track achievement data, and celebrate student success. A leadership coaching tool to support what to look for in the first 30-60-90 days is tailored for each school's implementation model.
Establishing a Data Culture	Guide leaders in establishing a data culture that emphasizes collaboration while cultivating a growth mindset and relational trust. Craft action plans to adopt a data-driven instructional model, develop data teams, and model data usage and dialogue while using data to drive student achievement.
Facilitating Data Teams and Data-Driven Dialogue	Prepare leaders to facilitate data teams and establish protocols to foster data-driven dialogue. Engage in hands-on exploration with reports, and develop action plans to promote data-driven decision making to support educators with instructional planning.
Best Practices for End-of-Year Procedures	Support leaders with critical steps for end-of-year data management. Review reports and make decisions about the yearly data reset and assessment management. Learn when and how to manage student accounts, educator accounts, classes, and content. Best practices for end of year will be woven throughout the workshop.

GETTING STARTED WORKSHOPS

Audience: Educators

Session Title	Description
Getting Started with Imagine MyPath	Build a solid understanding of Imagine MyPath's essential features through an exploration of the student and educator experiences. Learn how to manage content and student accounts and identify how to use data to drive student engagement, progress, and achievement.
Best Practices with Reports and Data	Gain a foundational understanding of the reports in Imagine MyPath. Learn how to identify learning gaps in both group and individual data, and leave equipped with monitoring strategies and steps for student goal setting.

NEXT STEP WORKSHOPS

Audience: Educators

Session Title	Description
Assignment Builder for Educators	Build a solid understanding of the Assignment Builder to plan for and build assignments to deliver content that supports classroom instruction, reinforces skills, and targets additional practice. Hands-on exploration with lessons and building assignments equips educators with best practices to assign lessons and monitor student progress.
Data Management and Progress Monitoring	Get hands on with school data to review engagement, progress, and achievement data metrics. Learn how to run key reports to analyze group and individual data, identify learning gaps and trends, form targeted goals, select success strategies for students, and learn best practices for data chat conferencing.
Blended Learning Best Practices	Discover best practices to blend instruction with Imagine MyPath, maximizing the best use of time, place, and space. Get hands on with instructional resources to target class and individual students' needs. Dive into best practices and success strategies to analyze data and make instructional decisions to drive student achievement.
Helping All Learners Succeed	Introduce educators to tools and strategies that support all students with a special focus on exceptional student populations. Analyze benchmark assessment data to identify opportunities for growth, determine priorities, and outline next steps. Dive into progress monitoring best practices and discover how to set and track goals and create strategies to increase student success.
Summer School Success	Build a solid understanding of the student and educator experiences. Learn how to manage students, classes, and content, and identify key reports and progress-monitoring tools to support summer school success.

TARGETED SUPPORT

Session Title	Description
Goal Setting and Motivating Students	Identify expectations and acquire steps for student-led goal setting. Learn motivation strategies, how to increase student engagement, and how to promote student agency in learning. Dive into progress-monitoring tools to track and increase student success.
Engaging Families	Learn how families can prepare the home learning environment with resources to set students up for success to learn at home. Participants will leave with ready-to-go resources that they can share with families.
Customize Office Hours with Tailored Support	Address questions that teachers or leaders have at each stage of your implementation. We tailor sessions to site- or classroom-level topics and issues, support new users, and dive into new features, all to ensure educators are set up for success. Topics can include: • Best Practices with Lesson Resources • Best Practices with Class and Student Data & Actions • Best Practices with Data Reports & Analysis • Assignment Builder

Our PD specialists will partner with you to tailor sessions to your implementation goals.
