Two levels of sessions available

GETTING STARTED WORKSHOPS
for Educators

Educators build a solid foundation of product knowledge and features through hands-on practice and walk away with key tools to launch and support program success.

TARGETED SUPPORT
for All

Strategically tailored sessions support educators at point of use and align to a needs analysis.

GETTING STARTED WORKSHOPS

Audience: Educators

Session Title	Description
Getting Started with Imagine Robotify	Build a solid understanding of Imagine Robotify's essential features through an exploration of the student and educator experiences. Participants will learn how to use the Learn, Create, and Compete features of Imagine Robotify, access and utilize the Educator Resources, and identify the different ways to use data to drive student engagement, progress, and achievement. They will walk away with the initial tools needed to begin using Imagine Robotify.
Best Practices with Reports and Data	Dive into engagement, progress, and achievement metrics. Participants will discover key reports, learn how to identify learning gaps in both group and individual data, and leave equipped with monitoring strategies and steps for student goal setting.

TARGETED SUPPORT

Audience: All

Session Title	Description
Best Practices with Project and Compete Resources	Help educators plan, manage, and assess projects and competitions. Educators will learn where to find teacher and student resources, the process of projects and competitions, and get hands-on exploring projects and building competitions. Additionally, participants will discover best practices for assigning and monitoring student progress.
Best Practices with Unplugged Lessons	Help educators plan, manage, and assess unplugged lessons. Educators will learn where to find teacher and student resources and get hands-on exploring unplugged lessons. Additionally, participants will discover best practices for assigning and monitoring student progress.
Customized Office Hours with Tailored Support	Address questions that teachers or leaders have at each stage of your implementation. We tailor sessions to site- or classroom-level topics and issues, support new users, and dive into new features — all to ensure educators are set up for success. Topics can include: • Best Practices with Courses and Assignments • Best Practices with Projects • Best Practices with Competitions • Best Practices with Unplugged Lessons • Best Practices with Data Reports & Analysis • Best Practices with Student Ownership of Learning
