

Imagine Galileo® Professional Development

Craft a PD package that adapts for each site or as shareable sessions across the district

Choose from our virtual webinars or onsite workshops, which can be purchased independently of packages.

	Foundational Webinar Package	Comprehensive Webinar Package	Foundational Onsite Package	Comprehensive Onsite Package
Modality	Virtual	Virtual	Onsite	Onsite
Participants	Up to 40	Up to 40	Up to 40	Up to 40
Sessions	4 sessions	8 sessions	2 onsite days (4 sessions)	4 onsite days (8 sessions)

Four levels of sessions available

Leading with Success for Administrators

Getting Started Workshops for Educators

Next Step Workshops for Educators

Targeted Support

LEADING WITH SUCCESS

Audience: Administrators

Session Title	Description
Best Practices to Lead with Success	Prepare leaders with everything needed to jump-start and lead a successful implementation with Imagine Galileo. Dive into each school's success plan and map out milestones for a successful rollout to educators. Attendees will work on crafting an assessment plan to be share with district stakeholders, providing guidance on how to implement the comprehensive assessment system with a phased approach. This session will emphasize key data indicators to monitor in the first weeks of implementation, along with action steps to take to ensure all sites and classes are up and running with success.
Establishing a Data Culture	Guide leaders in establishing a data culture that emphasizes collaboration while cultivating a growth mindset and relational trust. Craft action plans to adopt a data-driven instructional model, develop data teams, model data usage and dialogue while using data to drive student achievement.
Facilitating Data Teams and Data-Driven Dialogue	Prepare leaders to facilitate data teams and establish protocols to foster data-driven dialogue. Engage in hands-on exploration with reports, and develop action plans to promote data-driven decision making to support educators with assessment and instructional planning.

GETTING STARTED WORKSHOPS

Audience: Educators

Session Title	Description
Getting Started with Imagine Galileo	Build a solid understanding of both the teacher and student experience and key steps to take to get started with success. Explore the student testing experience and learn how to prepare students for online testing. Get hands on with the dashboard and learn about the test monitoring report and key data points to monitor after the initial benchmark to ensure a successful start.
Taking Action with Initial Benchmark Data	Equip educators with a foundational understanding of the report suite in Imagine Galileo. Explore baseline assessment data, learn how to set student learning goals, and focus on interpreting students' performance levels and standards mastery data. Hands-on opportunities will prepare educators to access reports and interpret data to make learner-centered and data-informed decisions. <i>*Recommended two weeks after the administration of the initial benchmark to ensure educators have their own student data to analyze.</i>
Engaging Families with Imagine Galileo	Prepare teachers for conferences with families, highlighting which reports and future student goals to share with parents/guardians. Learn about the Imagine Galileo Student/Parent Center, a powerful resource to increase family engagement and engage families in students' ongoing growth and achievement. <i>*Prerequisite: Taking Action with Initial Benchmark Data</i>

NEXT STEP WORKSHOPS

Audience: Educators

Session Title	Description
Maximizing Mid-Year Benchmark Data	Dive into Imagine Galileo mid-year benchmark assessment data and reports. Analyze student growth opportunities and identify standards on which to focus instruction and interventions. Learn how to group students demonstrating various levels of growth and risk, and map out action plans to target student learning. <i>*Prerequisite: Taking Action with Initial Benchmark Data</i>
Targeting Priority Standards with Imagine Galileo	Prepare educators to learn how Imagine Galileo's reporting suite can be used to meet the rigorous demands of a standards-based learning environment. Dive into priority standards as defined by the state/district/school through a structured unwrapping framework to prioritize instructional goals and meet the needs of grade-level core competencies.
Progress Monitoring with Imagine Galileo Formative Assessments	Explore how Imagine Galileo's pre-made and flexible formatives can assist in identifying students' learning accomplishments and needs. Learn how to use and create a repository of formative assessments, individually or with data teams.
Imagine Galileo Intervention Tools to Promote Student Learning	Learn how to use Imagine Galileo assessment data to implement interventions for students. Explore the best way to group students, including standards mastery, risk level, or growth. Get hands on and learn how the intervention group dashboard can assist in differentiation to target students' needs.

TARGETED SUPPORT

Session Title	Description
Customized Office Hours with Tailored Support	Address questions that teachers or leaders have at each stage of your implementation. We tailor sessions to site- or classroom-level topics and issues, support new users, and dive into new features — all to ensure educators are set up for success.

Our PD specialists will partner with you to tailor sessions to your implementation goals.
