10 Reasons Districts Love
Imagine Edgenuity® and Imagine EdgeEX™

1 **Engaging, Teacher-Led Instruction**
Courses feature expert on-screen educators who model concepts, prompt reflection, and foster comprehension — giving students structure and instructional support while allowing them to move at their own pace.

2 **Comprehensive Course Catalog**
Support every learner and pathway with 400+ courses, including core, CTE, AP®, dual credit, and test prep — ideal for initial credit, credit recovery, or acceleration.

3 **State-Aligned and Custom-Fit**
Our curriculum aligns with state standards, NCAA, Quality Matters, and is accredited. Educators can tailor content to match district scope, pacing, and instructional model.

4 **Real-Time Data, Real Impact**
Dynamic dashboards and in-depth reports help educators monitor progress, adjust instruction, and stay on top of implementation quality — from classroom to district level..

5 **Communication Built In**
Family portal access and automated progress updates keep families, counselors, and support teams connected and informed — without added lift for teachers.

6 **Flexible Customization Tools**
Easily reorder lessons, combine content across courses, and insert teacher-created assignments — empowering educators to adapt content while maintaining rigor.

"Imagine Edgenuity is the aligned curriculum we needed in a tech platform that kids relate to and that teachers will embrace once they're comfortable."

Superintendent Nora Gutierrez, Tolleson Union High School District, Arizona

"I loved it because I was more of a coach and a facilitator. I found that letting go of that curriculum control but being able to add to an already good curriculum and teaching kids the skills that I usually didn't have time to do in the classroom was really exciting and fun."

Katie Bjornstad, Assistant Principal, Northshore School District, Washington

7 **Academic Integrity Features That Work**
Our Speed Radar*, Plagiarism Checker*, AI Detector*, SecureLock Browser, IP Registry, and Proctorio Lockdown Browser are setting industry standards for academic integrity and reduce the manual review burden on teachers.

8 **Accessible for All Learners**
Serve multilingual learners and students with IEPs with features like read-aloud, text translation (132+ languages), Spanish audio tracks, and flexible accommodations settings.
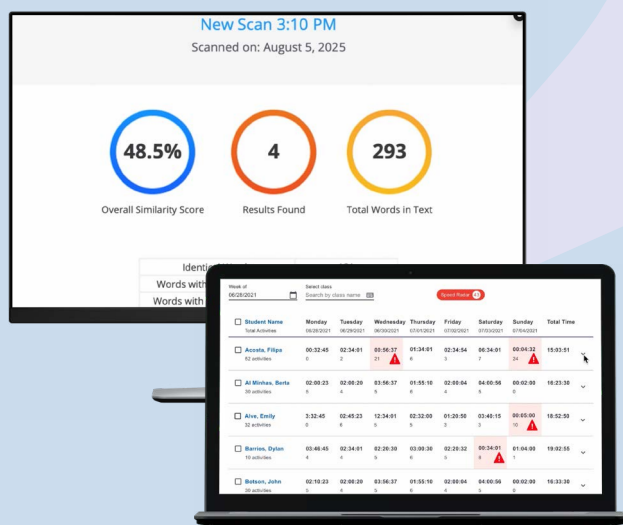

9 **Seamless Tech Integration**
Imagine Edgenuity integrates with most SIS and LMS platforms — earning Best-in-Class Interoperability Certification from Project Unicorn.

10 **Professional Learning That Drives Outcomes**
Our training options equip educators with the know-how to personalize learning, use data effectively, and confidently support student progress from day one.

Interoperability Certification Awarded by InnovateEDU's Project Unicorn

PROJECT UNICORN

*These features are available as part of the Academic Integrity Bundle.

"The Plagiarism Checker has given our teachers an easy place to start the review of student writing. The ability to share the report with students has been extremely helpful in explaining plagiarism and curtailing the habit of cutting and pasting from the Internet."

Hellen M. Secrist, Online Learning Coordinator, Katy Independent School District, Texas.

"The flexibility of getting a multitude of digital resources to students in real-time, in a format that is easy for students, parents, and teachers to navigate has been a true lifesaver."

Lauren Widmer, Director of Academic Options, Affton School District, Missouri
