

Help All Students Reach Grade-Level Reading Proficiency

Support any core literacy program with personalized instruction and practice in Imagine Language & Literacy®

Core Literacy Instruction

Core literacy provides comprehensive instruction for standards mastery in a whole-group setting.

Adaptive Support Companion

Personalized instruction enhances learning by offering instruction and practice that correlates with core instructional content.

Reinforce and extend learning

Provide differentiated instruction and practice

Expand data and assessment opportunities

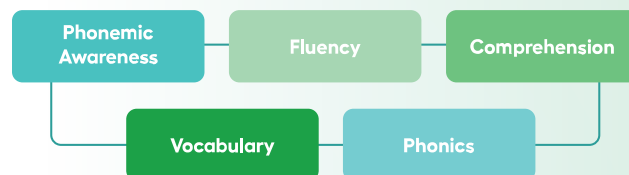

Reinforce and extend learning

Aligned to the science of reading

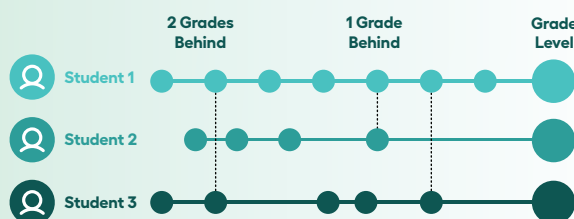

Not only does Imagine Language & Literacy teach the “Big 5” components of reading, but it also provides direct, explicit, and systematic instruction and practice of language and literacy skills in tandem — which is at the heart of science of reading research.

The 5 Components of Reading

Differentiated practice and instruction

Smart Sequencer™

Imagine Language & Literacy maximizes the impact of instructional time with personalized learning paths for every student. Our Smart Sequencer™ technology combines data from diagnostic assessments with current student performance to determine which learning modules a student needs, and the order in which they need them, optimizing pathways to skill proficiency.

Data and assessment

Our embedded assessments and reports allow you to:

- Discover trends and key insights in performance
- Dive into performance through comprehensive data tables
- Track progress
- Analyze individual standards performance
- Monitor mastery of specific skills

Support your core literacy program with adaptive, evidence-based practice.
