

Reimagine Math with Imagine Learning

Our adaptive digital math suite helps students in grades PreK and up build their aptitude for problem solving and reasoning inside the classroom and in day-to-day life, ultimately moving them beyond computation to real-life comprehension.

Imagine Math® for grades PreK–2

Imagine Math for grades PreK–2 is designed to inspire a lifelong love of mathematics and is fully available in both English and Spanish. The program immerses early learners in an engaging storybook context that seamlessly teaches young students to see mathematics in their everyday world.

- Scaffolded and differentiated instruction
- Contextualized vocabulary to promote the use of academic language
- Unique motivational elements

- Game-based lessons make learning fun and effective.

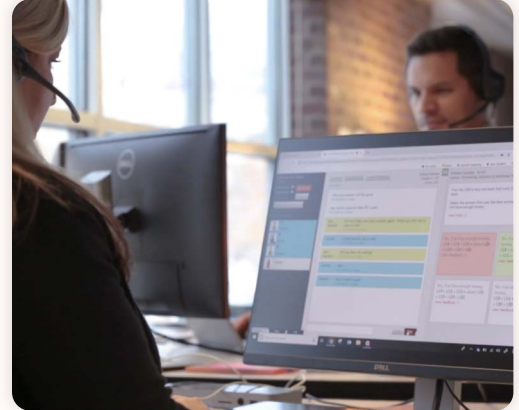

Imagine Math for grades 3 and up

Imagine Math for grades 3 and up personalizes learning and engages students in a meaningful exploration of mathematical understanding. An emphasis on academic discourse empowers learners to apply reasoning and critical thinking skills and sets them up for future successes in school and beyond.

- Live instruction by certified, bilingual math educators
- Motivational system to develop confident thinkers
- First-language support for English learners

Live, certified math teachers

Imagine Math Facts

According to the National Mathematics Advisory Board, math fact fluency is the most critical foundation of algebra readiness. **Imagine Math Facts** makes fluency practice fun, fast, and effective through game-based activities for students in grades 1–5.

- 94% math fact fluency in less than 5 hours

3X

More Proficient on SAGE

A statewide study found that students using Imagine Math 3+ were three times more likely to be proficient on SAGE assessments than non-Imagine Math students.
