

Power Personalized Learning

Imagine Language & Literacy® pairs seamlessly with Imagine+ Assessment

Discover a comprehensive and flexible assessment system that delivers screening, diagnostic, and formative assessments to enable precise, personalized learning and support confident, informed instructional decisions.

Expertly guide every student's unique learning journey

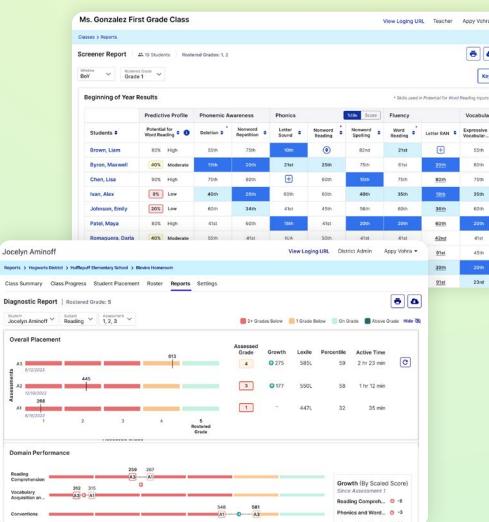

Pinpoint precise learning needs: Imagine+ EarlyBird Screener's unique, game-based format unites all the relevant predictors of dyslexia and other early reading difficulties in one comprehensive, easy-to-administer assessment that's aligned to the science of reading. The Imagine+ Diagnostic provides teachers with a complete picture of each student's reading strengths and areas for growth.

Find insights to personalize student learning journeys: granular, domain-level insights from the Imagine+ Diagnostic seamlessly flow into Imagine Language & Literacy to create students' initial personalized learning paths and maximize engagement and growth by adapting those learning paths based on student performance after each test throughout the year.

Respond to students' needs in the moment: choose from more than 550 ELA Imagine+ Formatives — short, standards-aligned, prebuilt K-12 assessments to empower teachers with a quick picture of learning that supports day-to-day classroom instruction and intervention.

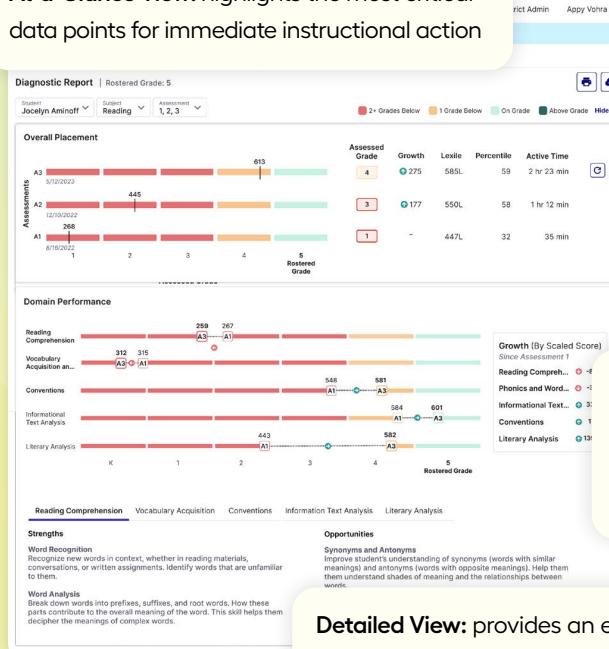

Flexibility to build on your existing assessment data

Seamlessly complement the assessments already in use in your school or district. Imagine+ Assessment makes it easy to administer the specific assessments that meet your goals, enhancing your existing data to guide instruction, avoid over-testing, and personalize instruction with Imagine Language & Literacy.

OUR ASSESSMENT PARTNER:

At-a-Glance View: highlights the most critical data points for immediate instructional action

Make data-driven instructional decisions with ease

Discover comprehensive, real-time insights into student growth, achievement, mastery of standards, and more. Imagine+ Assessment's unique, user-centric reporting designs are tailored to fit educators' time constraints to simplify data analysis and interpretation.

5-Minute View: provides quick yet meaningful data analysis for educators to gain a more comprehensive understanding of student performance

Detailed View: provides an extensive analysis of assessment results for a detailed examination of performance

Enable personalized learning with a comprehensive assessment system

Discover a comprehensive and flexible system of screening, diagnostic, and formative assessments that delivers precise, personalized learning and supports informed instructional decisions.
