

Imagine Imagine MyPath® for Grades K–12

Assess less and personalize more to maximize learning breakthroughs

Top 10 Reasons Why You Need Imagine MyPath K–12

1. Mypath Smart Sequencer™

Imagine MyPath's Smart Sequencer™ identifies the essential skills each student needs to catch up, keep up, and move ahead. It creates personalized learning paths using research-based, developmentally appropriate lessons to meet students exactly where they are.

2. Individualized, Adaptive Instruction

Imagine MyPath creates personalized learning paths based on each student's content area knowledge, as well as grade, to deliver age-appropriate instruction for all learners. Assessment outcomes (Imagine+ Assessment, MAP, Renaissance Star) and ongoing Mastery Checks adapt instruction and help students scaffold up to grade-level learning.

3. Early Literacy Support

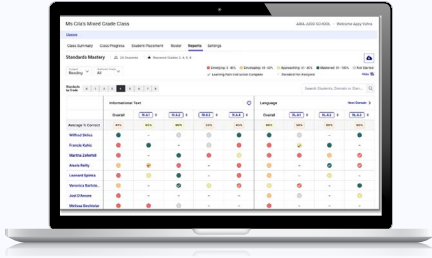

Students in grades 2–8 who place two or more grade levels behind and students in grades 9–12 who place in grades K–8 begin their learning with an age-appropriate Early Literacy Bundle to review critical foundational skills that accelerate progress toward grade-level comprehension activities.

4. Explicit Instruction for All Learners

Imagine MyPath provides accessible instruction for diverse learners, consistent with the Universal Design for Learning framework. It incorporates the principles of explicit instruction with translation of the onscreen text and text-to-speech in more than 60 languages. K–5 Mathematics is available in a Spanish for multilingual learners and dual language programs.

5. Teacher Toolkits with Every Lesson

Imagine MyPath K–12 helps teachers identify students who need additional practice and provides downloadable resources to extend learning offline. These mini-lessons include student worksheets for initial review, structured practice, independent practice, and opportunities to demonstrate understanding.

6. Actionable Data Helps Inform Instructional Decision-Making

Performance data allow teachers to efficiently identify student strengths and weaknesses, make informed decisions, and supplement the student's Individual Learning Path (ILP) as needed.

7. Optimizes Student Motivation and Engagement

Promote self-efficacy and positive self-concept with an engaging, interactive learning environment that rewards students for making progress and motivates them to persist, even with challenging content.

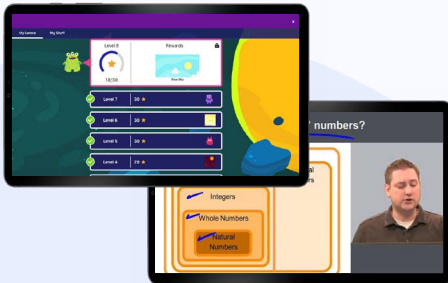

8. Professional Development and Support

Imagine MyPath comes with high-quality professional learning to ensure you are equipped to meet your implementation goals, support your teachers and students, and maximize achievement in your districts.

9. Assess Less, Personalize More

Imagine MyPath offers seamless integration with the Imagine+ Diagnostic that provides a reliable measure of each student's ability and instructional grade level in reading and math. Districts and schools implementing an RTI or MTSS model can use the Imagine+ Diagnostic to help identify at-risk students and monitor their response to intervention. In addition, Imagine MyPath integrates with NWEA MAP Growth™ and Renaissance Star to ensure that students can spend less time taking assessments and more time learning.

10. Age-Appropriate Lessons for All Students

Imagine MyPath delivers instruction in an engaging and age-appropriate environment that scaffolds learning while boosting student confidence by prioritizing the essential skills each student needs for grade-level success.
