

Close Achievement Gaps with Small Group Targeted Instruction

Access intervention support through a research partnership and see its effect on your students' scores

Imagine Learning's Small Group Targeted Instruction (SGTI) pairs certified teachers with K–12 students in secure online small groups, delivering personalized, equitable learning experiences proven to boost achievement.

What SGTI delivers

- Certified teachers providing personalized, evidence-based small-group instruction
- Flexible scheduling aligned to district and school calendars
- Targeted interventions driven by ongoing formative assessments
- Clear, actionable progress reports for educators and families
- Small group English language development (ELD) led by ESOL-endorsed specialists

A research opportunity for your district

Imagine Learning is offering districts a unique opportunity to implement SGTI for reading or math intervention through a collaborative research study in the 2026–2027 school year. District partners will receive:

- Access to SGTI for reading or math intervention
- Top-tier professional development and customer support
- Actionable data on student outcomes

Shape the future of education by participating in research with the potential to transform digital education nationwide. The data collected from this study will help schools like yours implement best practices for digital learning.

Join the 2026–2027 research cohort

Become a research partner with Imagine Learning to bring SGTI to your district and see its impact on your students' learning outcomes.
