

Literacy Instruction Built for Active Classrooms

Dragonfly® is built around the literacy experiences that matter most: reading authentic texts, building knowledge, engaging in meaningful discussion, and developing strong writing skills. Teachers guide learning through purposeful instruction and rich classroom interactions while students actively participate, growing as readers, writers, and critical thinkers.

Students

- Read authentic trade books and connected texts
- Participate in collaborative conversations
- Engage in writing and performance tasks
- Practice foundational literacy skills through active learning

Teachers

- Facilitate literacy instruction and discussion
- Guide foundational skills and knowledge building
- Support writing, discourse, and comprehension
- Monitor progress through classroom artifacts and assessment

Digital Support

Digital resources are used purposefully to support instruction and reinforce learning. They help teachers:

- Model literacy routines
- Deliver foundational skills instruction
- Support discussion protocols
- Reinforce key skills
- Facilitate teacher-led lesson delivery
- Introduce rich topics

How Learning Happens

Reading + Discussion + Writing + Purposeful Media

Dragonfly brings together authentic reading experiences, collaborative conversations, writing, and strategic media use to support active literacy learning. Students spend their time reading, discussing, writing, and building knowledge, while digital resources support instruction where they add value.

Flexible Classroom Implementation Resources

Dragonfly components are designed to support best practices in literacy instruction and align to a rigorous, spiraled scope and sequence. Whole-group instruction, small-group learning, and independent work come together to ensure all students are supported as they develop literacy knowledge and skills.

Essential resources and learning experiences are available both in print and digitally, so teachers can effectively guide and scaffold instruction according to classroom needs.

Authentic books, classroom discussion, and teacher-facilitated instruction remain at the center of the learning.

Why Districts Choose Dragonfly

Districts choose Dragonfly because it combines research-based literacy instruction with engaging classroom experiences that help students build strong reading, writing, and knowledge foundations.

- Science of reading-aligned instruction
- Authentic books in students' hands
- Teacher-facilitated literacy learning
- Strong foundational and knowledge-building skills
- Purposeful media integration
- Active classroom learning experiences

Dragonfly supports teacher-led instruction with print, digital, and blended implementation options that fit classroom and district needs.
