

Targeted Intervention Built for Purposeful Instructional Support

Imagine MyPath® helps teachers deliver targeted intervention aligned to classroom instruction. Students engage in focused learning experiences designed to address specific skill gaps, while teachers use real-time data to guide grouping, reteaching, and instructional support.

Students

- Engage in focused intervention practice
- Build essential reading and math skills
- Apply learning through worksheets and Guided Notes
- Participate in small-group support
- Reinforce learning beyond digital sessions

Teachers

- Guide intervention and reteaching
- Use data to group students strategically
- Monitor progress and mastery
- Connect intervention to classroom instruction

Digital Support

Digital resources help teachers identify needs, target support, and monitor growth by providing:

- Targeted intervention pathways
- Visibility into student progress
- Standards-aligned grouping insights
- Efficient support planning

How Learning Happens

Intervention + Small Groups + Reteach + Digital Insight

Imagine MyPath supports focused intervention that works alongside classroom instruction. Teachers use instructional insights to identify learning needs, provide targeted support, and reinforce skills through small-group instruction and reteaching.

Flexible Classroom Implementation

Imagine MyPath is designed to fit naturally within intervention and support models already used in schools. Teachers determine how and when students engage, using data and instructional insights to provide targeted support where it is needed most.

Supported implementations include:

- Intervention blocks
- Rotations
- Small-group instruction
- Teacher-guided reteach
- Flexible support models

Short, focused intervention sessions help teachers address skill gaps while maintaining strong connections to classroom learning.

Why Districts Choose Imagine MyPath

Districts choose Imagine MyPath because it helps teachers identify learning needs, target intervention efficiently, and provide meaningful support that connects directly to classroom instruction.

- Focused intervention pathways
- Teacher-guided implementation
- Structured instructional use
- Real-time instructional insights
- Classroom integration
- Flexible support for diverse learners
- Printable Worksheets and Guided Notes to support active, independent learning and practice
