

imagine school services

Certified teachers, special education services, and flexible tutoring and intervention for grades K-12

Meet district-level goals with flexible services that give students the right support at the right time, including K-12 certified teachers, special education services, and tutoring and intervention.

Your Partner in Student and Educator Success

Instructional Services

Close staffing gaps and expand course access with certified online educators and a wide range of high-quality courses.

Tutoring and Intervention

Provide targeted support through certified tutors and interventionists who work with students one-on-one or in small groups.

Specialized Services

Support students with IEPs and learners who need speech-language pathology services with personalized, equitable solutions.

“One of the most attractive items to us... is the personal attention that the Imagine Learning teachers provide to our students. We were really looking for not only content area experts, but also individuals that understand how to connect with students in the virtual space.”

Jill M., Program Director, Waterfront Learning

Let's Connect

Whether you're addressing staffing challenges or expanding student support, we'll help you find the right solution for your students and educators.
