

Imagine IM Earns **All-Green** Ratings from EdReports

All Green. All Grades. K–12 Math.

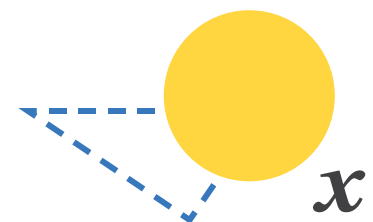

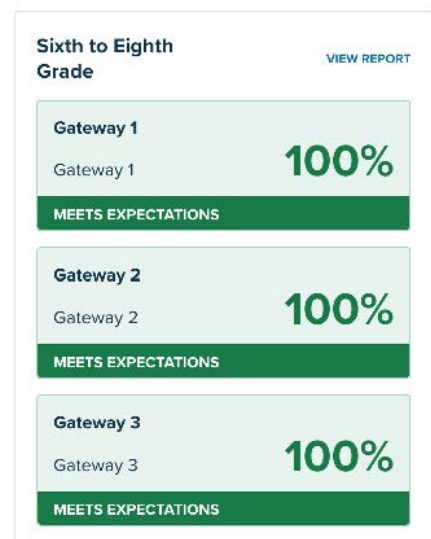

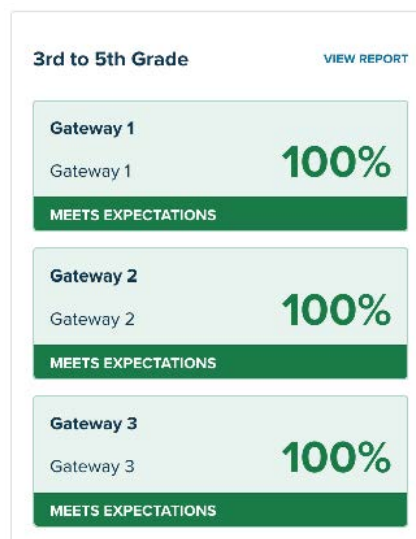

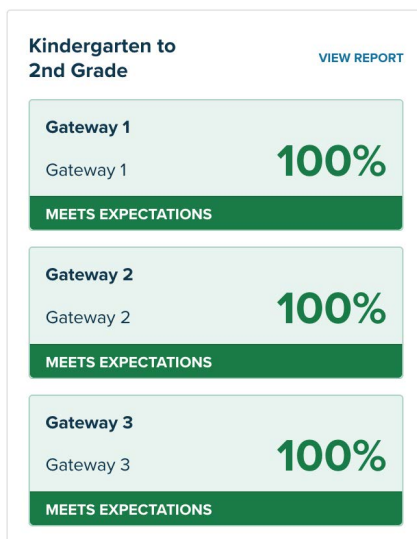

Imagine IM earned “Meets Expectations” ratings across every EdReports gateway for K–12 mathematics, from elementary and middle grades through high school.

EdReports, a leading independent reviewer of instructional materials, found Imagine IM meets expectations for:

- **Gateway 1:** Focus & Coherence
- **Gateway 2:** Rigor, Balance & Practice Connections
- **Gateway 3:** Usability & Instructional Supports

One coherent, high-quality math curriculum. All green from K through 12.

Why This Matters

When districts choose a curriculum, EdReports is their gold standard. And Imagine IM shines.

Built on a problem-based approach

Students explore, question, reason, and truly understand the math.

Designed for real classrooms

With embedded supports, extension opportunities, and tools that help teachers reach every learner.

Coherent from year to year

Vertical alignment from K through 12 helps students build lasting mathematical understanding.

Backed by research, crafted for impact

From standards alignment to instructional design, Imagine IM checks every EdReports box **and then some**.

Imagine IM gives educators a curriculum they can trust. It's rigorous, supportive, and proven to meet the highest national benchmarks.
